Subject: Update on commissioning of additional 19.8 MW out of 50 MW capacity of wind power project at Shapar, Gujarat by ACME Pokhran Solar Private Limited, a wholly owned subsidiary of ACME Solar Holdings Limited

Dear Sir/Madam,

In continuation of our earlier intimation dated May 28, 2025, regarding initial commissioning of 26.4 MW wind power project at Shapar, Gujarat, by the Company's wholly owned subsidiary, ACME Pokhran Solar Private Limited. The subsidiary has now commissioned additional 19.8 MW of the said project. With this the subsidiary has achieved a commissioned capacity of 46.2 MW out of 50 MW and the project is expected to be fully commissioned in the next few days.

With this, the total operational renewable energy capacity of the Company has increased to 2,826.2 MW.

The press release in this regard is attached.

You are requested to take the same on your records.

Thanking you,

For **ACME Solar Holdings Limited**

Rajesh Sodhi
Company Secretary and Compliance Officer

ACME Solar commissions additional 19.8 MW capacity of its maiden wind power project in Gujarat

On track to achieve full commissioning in the next few days

GURUGRAM, JUNE 13, 2025: ACME Solar Holdings Limited is fast-tracking the commissioning of its maiden wind project located in Shapar, Gujarat. Following the initial commissioning of 26.4 MW in May 2025, the company in current phase has commissioned an additional 19.8 MW taking the total commissioned capacity of the wind project to 46.2 MW out of the planned 50 MW. Following this milestone, ACME Solar's operational capacity has enhanced to 2,826.2 MW. The project is expected to be fully commissioned in the next few days.

Strategically located in one of India's highest wind resource regions, this wind project is housed under the company's special projects vehicle, ACME Pokhran, and financed through Power Finance Corporation (PFC). The power generated from the project is sold through the 25-year Power Purchase Agreement (PPA) signed between ACME Pokhran and Gujarat Urja Vikas Nigam Limited.

ACME Solar is constructing the wind project through its in-house EPC making it a margin accretive project while enabling the project's delivery within stipulated timelines. The clean energy harnessed through the project is pooled at 33/220 kV pooling station and stepped up for evacuation to Shapar sub-station using a dedicated single circuit 220 kV transmission line. The project would share the sub-station with ACME Solar's another upcoming wind power project which is also in advanced stages of construction.

About ACME Solar Holdings: ACME Solar Holdings is a leading integrated renewable energy player with a diversified portfolio of 6,970 MW spanning solar, wind, FDRE and hybrid solutions. With this milestone, the operational capacity of ACME Solar stands at 2,826.2 MW with another 4,143.8 MW in various stages of implementation. With an in-house EPC and O&M division, the company does end-to-end development and O&M of the plants, thereby delivering projects in a time & cost-effective manner while ensuring best in class operating performance evident in its industry leading CUF and operating margins.
